My name is Michelle Freeman-Rieth. I am running for a position on the Canyon Creek Board of Directors. I have lived in Canyon Creek since I purchased my home in December 2016. I served 4 years in the Air Force at KI Sawyer AFB in Michigan as an Electronic Countermeasures Specialist. I was recruited by several defense contractors while in the military and transitioned to private employment as a service specialist at Northrup Grumman. I was later recruited by the Federal Aviation Administration (FAA) where I served for 32 years. I served as a Radar Specialist and later as a National Airspace Technical Inspector. I specialized in ensuring maintenance policy compliance. I transitioned into management that required a move to the Regional Office in Fort Worth when my son left for college. I was responsible for managing the team of field inspectors that evaluated the maintenance program for Air Traffic Control equipment in 27 states.

Duties included managing personnel, managing a large federal annual budget, and ensuing compliance with all federal human resource laws, maintenance, and budget/financial laws and policies. I retired several years ago. Love retirement but get bored easily. I enjoy spending time helping my community.

Our community has grown significantly in the last 10 years. My goal for the next year on the board is to formalize our organization's operating policies and procedures to ensure consistent application of the governing documents and current state laws, updating the Bylaws to comply with state law and continuing trying to hold AQUA Water, Inc. accountable for the construction damages to our community and the polluting of Lake Granbury. I believe in organizational transparency and vow to increase the transparency of board activities.

Feel free to contact me at 325-260-3879 if you would like to know more.
